MARVELS OF MADAGASCAR

Discover the wildlife & wonders of Madagascar
aboard the MS Island Sky

24th November to 6th December 2021

NOBLE CALEDONIA

Masoala National Park

Landing by Zodiac

Escape the winter for the warm waters of the Indian Ocean and join the MS Island Sky for this unique ten night voyage that focuses exclusively on the wonders of the world's 'eighth continent' - Madagascar. The animals, plants, landscapes and people that make up this thousand mile long island are unlike anywhere else in the world and during our comprehensive itinerary there will be ample opportunity to discover the rainforests which are full of wildlife including the iconic lemur, chameleons and indigenous birdlife as well as seeing the underwater world and village life.

Madagascar has long remained obscure as a destination and is still relatively unexplored, there is minimal infrastructure in many parts of the island and for those wishing to explore in some depth, doing so by small ship, especially one as well-suited as the MS Island Sky is far preferable to exploring by any other means. In the company of just 118 fellow guests our days will be spent exploring ashore, often traversing over rugged terrain and walking through spectacular rainforests, and each evening we will have the benefit of returning to our comfortable ship to relax and look forward to the next adventure.

With the vessel's fleet of Zodiacs for forays ashore, allowing access to the wonderful places denied to larger ships, we will explore and enjoy encounters with fabulous endemic wildlife in this immensely rich and timeless corner of the Indian Ocean. Your experience will be made all the more memorable by our expert crew and officers who, along with our expedition team including marine biologists, ornithologists and botanists have many years of experience in the region.

What to Expect...

Flexibility is the key to an expedition cruise; sometimes the whole day's schedule will be changed to maximise your experience, something that would not be possible on a large cruise ship. Each day holds something new and below are some extracts from the ship's log from previous expeditions which will provide you with an idea of what to expect.

Masoala National Park & Nosy Mangabe: This morning we were anchored off the Masoala Peninsula and our destination, Nosy Mangabe, is a small island in the national park. We disembarked on a beautiful golden beach backed by primary rainforest and once ashore we split into our various groups and headed off into the forest in search of wildlife. The lemurs appeared, racing through the treetops and there were frogs everywhere. There were the green-backed mantellas, quite brash in their black and green colours, tiny nondescript frogs laying their single egg in the stumps of bamboo. There were a number of leaf-tailed geckos which were so well camouflaged that they were almost impossible to see even at close range. Near the landing site, the lemurs came down to check us out and allowed for some great close up photographs. On walks inland we saw some huge boulders of 3.2 billion year old granodiorite that formed akin

to how tors formed in the UK. This afternoon we had the opportunity to land here again for an afternoon exploratory walk or to enjoy a long Zodiac cruise along the peninsula.

Nosy Tanikley: Instead of using the Zodiacs this morning, local boats ferried us to the shore of Nosy Tanikley, a small island rising steeply from the beautiful palm fringed beach on which we arrived. One highlight was being able to snorkel among the coral reef that was close to shore. The fish diversity of the relatively small reef was impressive; there were colourful butterfly fish, clown fish in the anemones, pipe fish near the surface, even a friendly Hawksbill turtle swam by. The island was equally impressive. Walking up the concrete summit path was well worth it, and we were treated to an acrobatic display by a group of brown lemurs. The panoramic view from the lighthouse was stunning and only bettered by the white-tailed tropic birds flying close-by. Those that walked around the island were treated to seeing rufous and Madagascar flying fox flying but also sleeping in the shade. Hiking certainly worked up an appetite, which was just as well, as lunch was a plethora of local food; crab, zebu kebab, fresh fish, and, fruit. There was just a little time for one more dip, before we hastily departed on the Zodiacs as we were heading out to sea once again.

Broad-billed roller

Ankarafantsika National Park

Avenue des Baobabs

Mahajanga & Ankarafantsika National Park, Madagascar: This morning we were up bright eyed and bushytailed in readiness for an exciting day. Women in traditional dress greeted us on the slipway and our transport waited at the end of a strip of market stalls selling local crafts. The convoy of minibuses departed Mahajanga driving through the busy streets before heading out in the countryside. Savannah like landscape could be seen for miles on either side of the tarmac road. The savannah gave way to large swathes of rice paddies. Local rice farmers were seen harvesting the rice, children waved from the road side, as we passed through beautiful villages. We arrived at the Ankarafantsika National Park, a mere two hours after leaving the dock. Immediately after arriving, we saw a troop of brown lemur and the gorgeous Coquerel's sifaka expertly negotiating their way through the canopy. Our guides took us on prepared trails through the dry forest, spotting a variety of bird species, reptiles, and of course, lemur. Highlights included an eye-height view of a paradise fly-catcher incubating on a nest; a female Milne-Edwards sportive lemur with her juvenile resting on a tree trunk, iguanas basking in a variety of different body positions in spots of sunlight and, the fantastic spot of the Madagascar fish eagle. Combined we saw 51 different species of bird and reptile, and five species of lemur. What an incredible day!

The Itinerary

Day 1 London to Mauritius. Fly by scheduled indirect flight.

Day 2 Mauritius. Arrive today and transfer to the MS Island Sky moored in Port Louis. Enjoy welcome drinks and dinner as we sail this evening.

Day 3 At Sea. Spend the day at sea as we sail towards Madagascar. Maybe join a lecture or find a spot on deck to relax.

Day 4 Toamasina, Madagascar. We arrive in Madagascar at Toamasina, the country's main port and second largest city but also the gateway to the Pangalanes Canals, a series of rivers, waterways and lakes that extend for over 400 miles down the island's east coast. Used mainly for transportation and fishing, the canals are also home to unspoiled beaches, lagoons and lakes whilst providing access to national parks and private reserves. This morning we will take a local boat cruise through the canal to enjoy the scenery followed by a nature walk in one of the private reserves. Enjoy lunch in the reserve before returning to Toamasina this afternoon. Alternatively visit the Ivoloina Zoological Parc, a 282 hectare property combining a small zoo where we will see up to 12 species of lemur as well as indigenous tortoises and chameleons. Meanwhile in the surrounding forests we can see wild lemurs or malachite kingfishers on one of the many walking trails.

Days 5 & 6 Masoala National Park & Nosy Mangabe. Spend a day and a half in the Antongil Bay area. We discover Nosy Mangabe,

a 520-hectare island reserve and one of the most diverse areas of virgin rainforest in Madagascar. It has also been an important research centre since the mid-1960s when several aye-ayes and lemurs were released into the forest. We will use our Zodiacs to land on the beach next to the forest and organise a series of nature walks looking at the varied trees, plants and ferns and we hope to spot chameleon, lizards and black and white ruffed lemur. For the birders, we will keep an eye out for Madagascar buzzard, kingfisher and paradise flycatchers. We also explore Madagascar's largest protected area, the Masoala National Park, which comprises of coastal rainforest, flooded forests, marsh and mangroves. Mammal species encountered include the red-ruffed lemur, the red-fronted brown lemur and the ring-tailed mongoose. The park is also home to various species of brightly coloured Mantella frogs, all manner of extraordinary chameleons and is a refuge of the endangered Madagascar red-owl, Madagascar serpent eagle and many endemic bird species. A series of walks for all levels will be offered and there will also be the option to swim off the beach or perhaps visit the local village.

Day 7 Diego Suarez. After a morning at sea we will enter dramatic Diego Suarez, a stunning natural harbour with a cosmopolitan mix of inhabitants including Creoles, Indians, Chinese, Comorans and Arabs. This afternoon choose from a city tour visiting the Commonwealth Cemetery and Place Joffre, or the Malagasy Rainforest at the Mount Amber National Park. Dividing into short and long walk parties we will go in search of lemurs

Panther chameleon

Nosy Tanikely

Black and white ruffed lemur

and chameleons as we explore the rainforest. In the towering vegetation, we may spot several species of lemurs and chameleons as well as endemic birds, including parrots.

Day 8 Nosy Tanikely. We arrive this morning at the Nosy Tanikely Island Marine Reserve, an uninhabited island which offers snorkelling opportunities and wonderful beaches. We will take the chance to either swim in the clear waters or snorkel over the corals keeping an eye out for reef fish, turtles and morays. Alternatively our naturalists will lead guided walks on the island where we may see the resident lemurs, fruit bats and hermit crabs and enjoy fantastic views from the lighthouse on the island's highest point. Sail in the early afternoon.

Day 9 Mahajanga. Mahajanga is a major port in northwest Madagascar situated on the Betsiboka River and is our base for a full day excursion to

Ankarafantsika National Park. This deciduous forest is a haven for birds, lemurs and reptiles and, on a choice of walks, we will explore with our guides. Eight species of lemur have been observed here including the famous Microcebus, the smallest primate in the world. Meanwhile over 120 species of birds nest here and we will keep an eye out for the Madagascan fish eagle and banded kestrel whilst the 44 species of reptile include chameleon, turtles and crocodiles that live in Lake Ravelobe. We will enjoy lunch in the park and in the afternoon there will be options to join further walks or watch for birdlife at the nearby lake before returning to the MS Island Sky.

Day 10 At Sea. Spend the day at sea as we continue our journey around Madagascar.

Day 11 Morondava. From our anchorage off the town of Morondava, we will use the Zodiacs to land on the local beach. From here there will

be a choice of excursions to explore the local region. A half day morning tour will visit the Avenue des Baobabs. Of the eight baobab species in the world, six are endemic to Madagascar and here we will see the Adansonia grandidieri species with a row of 20 to 25 trees which border the gravel road. We will learn about the trees and their spiritual significance before returning to Morondava and exploring the local market. Alternatively join a full day excursion to Kirindy Forest. Situated approximately a two hour drive from Morondava, we will pass the Avenue des Baobabs as we travel north. Kirindy is a 10,000 hectare, dry deciduous forest, one of the most endangered in the world where the flora and fauna includes many endemic species. Here we find three species of baobab, many birds and reptiles including snakes, tortoises and

lizards. Eight species of lemur reside here including the pale form marked lemur.

Day 12 Tulear to London. Disembark this morning in Tulear and if time permits we will visit the Antsokay Arboretum which is entirely devoted to the conservation of the plants from the south west of Madagascar and offers a densely kept selection of flora presenting a typical sub-arid thicket with baobab trees towering over the smaller plants. We will see the four hectare botanical garden which comprises over 900 species of plants of which 90% are endemic to the region. We then transfer to the airport for our specially chartered flight to Johannesburg where we connect with our scheduled flight to London.

Day 13 London. Arrive this morning.

MS ISLAND SKY

Friendly Service

Deluxe Balcony Suite

The Restaurant

The much loved MS Island Sky is one of our three flag ships and sister vessel to the MS Hebridean Sky and MS Caledonian Sky. All three vessels were built in the same ship yard in Italy at similar times and share the same excellent attributes that make them three of the finest small ships in the world. With a maximum passenger capacity of only 118, a vessel of her size is capable of carrying many more but instead the MS Island Sky has the benefit of unusually large suites, luxuriously appointed public areas and spacious outside decks.

Your Suite

On board there are 59 exceptionally spacious and well-designed suites. All feature a seating area and some have private balconies, whilst those on the Marco Polo Deck feature tinted, sliding glass doors allowing greatly enhanced viewing opportunities and quick access to the deck. The feeling of luxury is enhanced by the wood panelling and brass, which predominates throughout the vessel conveying the atmosphere of a private yacht. The passenger accommodation is arranged over five decks and each suite affords considerable comfort with en-suite bathroom featuring marble-topped vanity unit with sink and walk-in shower, a large wardrobe, dressing table and excellent storage. There is a mini-fridge, flat screen television with inbuilt DVD/CD player and a telephone in each suite. Refillable water bottles, dressing gowns and slippers are also provided for your comfort. Other facilities include a safe, hairdryer, assorted Molton Brown toiletries, air-conditioning and heating. The comfortable beds in each suite can be configured as either double or twin.

Your Dining

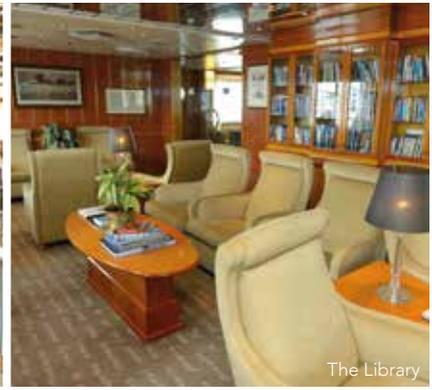

With only one sitting and a maximum of just over 100 passengers, the cuisine on board the MS Island Sky is of a consistent superior quality that befits such a vessel. In keeping with the informal atmosphere on board, when dining you are able to choose your seating arrangements and choice of restaurants at your leisure; whether that be joining a table of four to six other passengers in the elegant à la carte Restaurant or outside buffet-style on the Lido Deck in the evening sunshine. In the main Restaurant, breakfast is served buffet-style, with certain items cooked to order on request. Lunch and dinner menus offer plenty of choice, often reflecting the daily catch and local delicacies. The Welcome and Farewell dinners are a sumptuous five course affair. To enhance your dining experience further a selection of wines is included with both meals. Afternoon tea and pre-dinner canapés take place in either the comfort of the Lounge or out on the Lido Deck when the weather is favourable. Tea and coffee are also available 24 hours a day. Special diets can be catered for with sufficient notice.

Superior Suite

The Club

The Library

Your Space

The spacious and finely decorated public rooms include a large Lounge on the Columbus Deck featuring a selection of seating options from individual armchairs and sofas to side cushioned benches. Daily briefings given by the Cruise Director and talks from Guest Speakers and expedition staff take place in the Lounge. In addition to the main Lounge, there is also The Club, located on the Marco Polo Deck which features the main bar. The Club also features a 24-hour tea and coffee station. Towards the aft of the ship on the Columbus Deck is the Library. Well stocked with reference books pertaining to the destinations the vessel is visiting and a selection of essential reads, you will not find yourself short of excellent literature on board. A collection of games as well as devices to access the internet via the ship's satellite can also be found in the Library. Access to the ship's satellite Wi-Fi via your own device is complimentary on board (*signal strength varies depending on location and demand*). The main Restaurant, which can seat all guests at one sitting, is located on the Magellan Deck, and outside there is a rear Lido Deck located on the Erikson Deck where meals are served in warm weather under shade. Further to this on the top Explorer Deck there is an observation area ideal for spotting wildlife, complete with sun loungers for sunbathing, relaxing with a book or catching up with fellow travellers. The Promenade Deck wraps around the whole ship giving outstanding views. There is also a small beauty salon on board with appointments made on request.

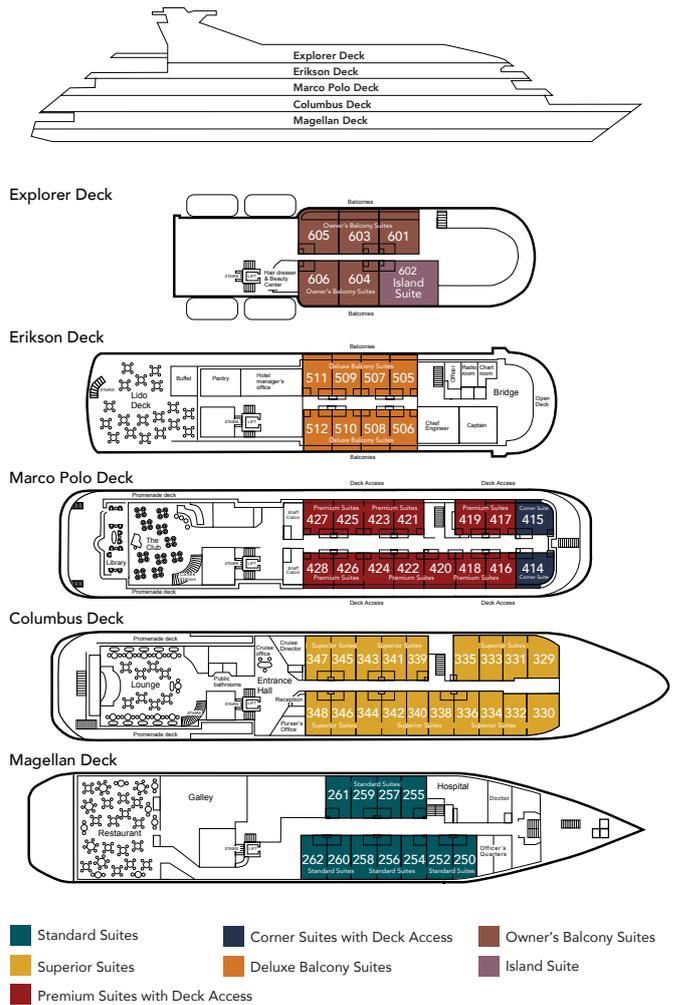

Your Comfort

The MS Island Sky is equipped with the latest safety, navigation and communications equipment along with roll stabilisers to minimise the ship's motion. During your voyage we hope to offer you the opportunity to visit the Captain and Officers on the Bridge to check the vessel's progress by charts and learn more about your journey. On board you will also find a clinic and Doctor and a lift that serves all decks. When at anchor our nimble Zodiacs will ferry you ashore or, on select cruises, enjoy Zodiac cruises getting you closer to the natural world.

Your Life On Board

The atmosphere on board is warm and convivial and more akin to a private yacht or country hotel in which you can learn more about wonderful destinations you are visiting in the company of like-minded people. There is a high ratio of crew to passengers and our friendly crew of 75 are mainly Filipino and Eastern European and our Captains are experienced mariners. After a day ashore you will return to the comfort and peace of a well-run and exceedingly comfortable ship where peace, high quality of service and attention to detail are the order of the day. A little music in the Lounge after dinner, Guest Speakers and informative port briefings and of course good food, all contribute to make any voyage aboard this wonderful vessel a memorable and joyful experience.

MS ISLAND SKY DECK PLAN

During this voyage you will be visiting out of the way destinations and will be accompanied by an expedition team. Landings and excursions will be made by Zodiac landing craft. This cruise will appeal to the more adventurous and those who enjoy the natural world.
