NOBLE CALEDONIA

Brown bears, Kamchatka

The remote reaches of Russia's Kamchatka Peninsula and the distant and isolated Kuril Islands have fired the imagination of explorers and traders for centuries. Our past travellers have enthused about the spectacular scenery, the incredible array of wildlife and the native cultures known to only a few privileged visitors. Join us on this remarkable voyage of unparalleled exploration along the 'Pacific Ring of Fire'. From Otaru, Japan to Russia's Kamchatka Peninsula, we cruise through a pristine environment that calls to nature lovers, history buffs, photographers and the intrepid explorer within.

Among the Kurils, a necklace-like chain of volcanic islands, we find vast forests and wildflower-dappled tundra, backdropped by soaring steam-breathing volcanoes. Basalt stacks rise from the sea, tailormade resting and nesting spots for an unimaginable number of seabirds. Upon reaching the Kamchatka Peninsula, Russia's remote easternmost province and home to the brown bear, we are greeted with a dramatic landscape of fire and ice. Geysers, hot springs and active volcanoes set amidst towering mountains and fast flowing rivers make this area magnificently unique. Marvel at spouting whales, frolicking seals and huge populations of nesting and migratory seabirds.

Using our fleet of Zodiacs we can explore inlets, bird sanctuaries and land in otherwise inaccessible places and, although we set sail with a set itinerary, it is often the unscheduled events that become the highlight. This is your opportunity to see a seldom visited corner of the world and to witness the timeless processes of nature taking place without the hindrance or help of man. Sailing in June, we will take full advantage of the mid-summer sun, travelling on nature's terms, enjoying dramatic scenery and encountering the region's ancient cultures and fascinating people whose lives are rarely touched by outsiders.

Exploring by Zodiac

Kuril Islands

Local people, Kamchatka

Steller sea eagle, Zhupanova River

Church, Petropavlovsk

THE ITINERARY

Day 1 London to Tokyo, Japan. Fly by scheduled flight.

Day 2 Tokyo. Arrive today and transfer to Prince Park Tower Tokyo hotel for an overnight stay. Take some time to relax and enjoy the hotel facilities.

Day 3 Tokyo to Otaru. After breakfast in the hotel we will transfer to the airport for our scheduled flight to Sapporo. On arrival, transfer to Le Soleal which is moored in Otaru and meet your expedition team.

Day 4 Korsakov, Russia. Spend the morning at sea before we arrive in the Russian port of Korsakov in the early afternoon. After clearing customs and immigration formalities we will have the opportunity to visit the city. See Yuzhno-Sakhalinsk's beautiful Cathedral of the Resurrection. The church was only completed in 1995 and the gold on the onion domes has very recently been laid, shining brilliantly. From the church continue to the Sakhalin Regional Museum, which is housed in a beautiful Japanese-style structure, due to the previous ruling of its southern neighbour. The museum covers all the facets of Sakhalin Island, from its flora and fauna, to its geology and history.

Day 5 Tyuleniy Island. Our lecture programme continues this morning as we sail to Tyuleniy Island. Tyuleniy means "seal" in Russian, and during the summer months the island is home to literally tens of thousands of northern fur seals and Steller sea lions. Our visit, at the height of the breeding season is well timed to see not only the seals and sea lions, but also tens of thousands of common guillemots and black-legged kittiwakes that have made their nests in the cliffs above.

Days 6 to 9 Kuril Islands. The Kuril Islands consist of a volcanic archipelago that stretches 1300 kilometres, through the Sea of Okhotsk, from northern Japan to the Kamchatka Peninsula in Russia. Our itinerary for these days will be flexible as our Captain and Expedition Leader will plan landings based on weather and sea conditions. However we hope to visit Chirpoy Island. The origin of the names is uncertain: the original Ainu language name of the island was Repunmashiri, a word meaning "place of many small birds". During a Zodiac cruise we search along the coast for the profusion of wildlife that lives in the area including Steller sea lions, fulmars, kittiwakes, puffins and auklets. Yankicha Island

is impressive, accessible only by Zodiac and only during high tide, it is actually a sinking volcanic caldera. Inside the magnificent lagoon with its fumaroles and hot springs, we can still see traces of the tremendous forces that created the island long ago. The number of auklets which breed here is truly incredible. Matua Island is home to one of the Kuril's most active volcanoes, with more than 14 documented eruptions in the past 250 years. We will learn about the Japanese military base that was set up here during World War II and how the Japanese used to capture geothermal heat from the volcano to keep the runway, which normally freezes over during winter, permanently usable. Hikers will be rewarded with good views of the abandoned military positions and will hopefully get a glimpse of the island's population of brown-headed thrush and Siberian rubythroats in the alder thickets. Alaid on Atlasova Island is the highest volcano in the Kurils with a height of over 2000 metres. Together with our expedition staff, we will land by Zodiac on the black lava beach of the island from where we will begin our walk to see the remains of the Taketomi tufa cone.

Day 10 Listvenichnaya Bay & Cape Kekurnyy, Kamchatka Peninsula. Arrive this morning at Listvenichnaya Bay on the Kamchatka Peninsula which is a prime location for brown bears. Depending on conditions we will make a landing or use the Zodiacs to scout the coastline. We will also see Steller sea lions, Steller sea eagles and harlequin ducks in the waters. Over lunch we will sail the short distance to Cape Kekurnyy, well known for the population of Steller sea lions that haul onto the rocks and where we will take a Zodiac cruise.

Day 11 Kamenistaya Bay & Chazma River. Continuing our time in Kamchatka we arrive this morning in Kamenistaya Bay located in the Kronotsky State Nature Reserve. The reserve was established in 1934 and is one of the oldest in Russia covering an area of almost 11,000 square kilometres which contains forest, tundra, taiga, mountains, volcanoes and geysers, a hugely diverse habitat for the abundant wildlife. The reserve is home to brown bear as well as caribou, otters, seals and multiple species of birds. If conditions permit we will offer walks with our expedition teams on land or Zodiac cruises to view the wildlife.

Humpback whale

Chirpoy Island

Sea otter

Bering sea horned puffins

Exploring by Zodiac

Day 12 Ariy Kamen & Nikolskoye, Commander Islands. The Komandorskiye or Commander Islands are named after famed Commander Vitus Bering who had been commissioned by the Russian Tsar to search for a land bridge between Asia and America. After having been to Alaska he was forced to overwinter here. He was buried on the island, but part of the crew managed to return to Petropavlovsk. Our experiences will be determined by weather, wildlife and sea conditions. We intend to visit Nikolskoye, which was established in 1826 by fur traders. This fishing village on Bering Island has a small museum where we will learn about the Aleut people and their culture. During our visit we will enjoy a presentation of local games. In the afternoon, take a Zodiac ride to tiny Ariy Kamen Island a habitat for vast numbers of birds.

Day 13 Zhupanova River, Kamchatka Peninsula. This morning we will cruise back to Kamchatka and over lunch we anchor in the Zhupanova River. The Zhupanova River Estuary is a scenic maze of moist bogs, serpentine river channels and ponds against a snowy backdrop. The tall volcanic cone of

Kronoskaya Sopka (3528 metres) stands above this predominantly uninhabited land. The river is one of the most productive trout rivers in the world and is home to the richest rainbow trout habitat on Kamchatka. This afternoon we have the opportunity to take a long Zodiac cruise along the river looking for wildlife including Steller's sea eagles, Aleutian terns, seals and of course the iconic Kamchatka brown bears.

Day 14 Petropavlovsk. Petropavlovsk, town of Peter and Paul, derives its name from the two sailing ships used by Vitus Bering when the great explorer reached Avacha Bay in 1740. It is the only major city on the peninsula and one of the oldest towns in the Russian Far East. It is also the scientific and cultural centre of the region, and today we see just why that is, as our local guides take us on a comprehensive tour of the city's highlights. We will visit the museum of ethnography and natural history, the art school, the gold-domed Orthodox cathedral and the marketplace. We will have almost the entire day to explore the town. As an exciting alternative, it may be possible to purchase an optional helicopter excursion to the Valley of the

Geysers in the Kronotsky Nature Reserve.

Day 15 Petropavlovsk to Seoul, South Korea. Disembark this morning and transfer to the airport for our chartered flight to Seoul.

On arrival transfer to the Grand Hyatt Incheon for an overnight stay.

Day 16 Seoul to London. After breakfast in the hotel transfer to the airport for our scheduled flight to London.

PRICE INCLUDES: Economy class scheduled air travel from London to Tokyo, Tokyo to Sapporo and Seoul to London • Chartered flight from Petropavlovsk to Seoul • Overnight hotel accommodation in Tokyo and Seoul on bed and breakfast basis • 12 nights aboard Le Soleal on a full board basis • Open bar • Expedition team • Shore excursions • Gratuities on board the ship and on excursions • Group transfers • Permits • Port taxes • Complimentary parka jacket.

Not Included: Travel insurance, Russian visa, optional excursion to Valley of the Geysers on day 14.

NB. The itinerary is flexible and subject to change due to weather & sea conditions. Also, many landings are subject to authorisation from the Russian Authorities which can be permitted and then cancelled at short notice.

PRE-CRUISE EXTENSIONS

Before your voyage aboard Le Soleal you may wish to extend your time in Japan. Join an eight night tour to Hokkaido, Japan's most northerly island and a place of beautiful landscapes and untouched wilderness, or spend three nights in Tokyo to relax after your flight and explore this modern city.

HOKKAIDO EXTENSION

4th to 12th June 2019

THE ITINERARY

Day 1 London to Tokyo. Fly by scheduled flight.

Day 2 Tokyo. Arrive today and transfer to our hotel for an overnight stay. The remainder of the day is free to explore independently or enjoy the hotel facilities.

Day 3 Tokyo to Abashiri & Shiretoko Peninsula. After breakfast we return to the airport for our scheduled flight to Memanbetsu airport. On arrival we will transfer to the Abashiri Tentozan observatory with views over the magnificent Sea of Okhotsk and it may be possible, if weather permits, to see the Shiretoko Mountains. Also visit the Okhotsk Ryu-Hyo Museum where we learn about drift ice and sea life found here including angel "Clione" and balloon fish "Fuusen'uo". On our way to the Shiretoko Peninsula we will pass the Koshimizu Gensei Kaen, a natural flower garden in the eight-kilometre-long sand dune between Tofutsu Lake and the Sea of Okhotsk where about 40 kinds of flowers bloom each year. Overnight at the Shiretoko Daiichi Hotel where we will enjoy dinner.

Day 4 Shiretoko Peninsula. We have a day at the Shiretoko National Park which covers the majority of the Shiretoko Peninsula. This remote and untouched park combines rivers, forests, mountains and waterfalls and is home to an array of wildlife including brown bears, Yezo shika deer and red fox whilst birders can keep an eye out for Steller sea eagles, Blakiston fish owl and white-tailed eagles. We will visit the Shiretoko Goko Lakes, taking the boardwalk trail and keeping an eye out for the wildlife in the forest and, if weather permits, we will stop at Shiretoko Pass observatory offering a marvellous viewpoint of Mount Rausu, the highest mountain in the Shiretoko Mountains. After lunch we will take a local boat to see the spectacular cliffs and waterfalls of Shiretoko Peninsula and possibly white-tailed eagle and brown bear from the ocean. After our cruise we return to the hotel to relax before meeting for dinner.

Day 5 Lake Akan. After breakfast in the hotel we will check out and make a stop at one of Japan's most scenic waterfalls, Oshin Koshin Falls, before continuing to the Akan-Mashu National Park. Often enveloped in a fog, it is referred to as "Kiri no Mashu-ko" (Foggy Lake Mashu), but once the fog has cleared the beautiful Lake Mashu comes into view. We will continue to the Akan Tsuruga Wings hotel, our base for the next two nights. Here you may wish to visit the onsite Onsen (hot spring) for a traditional Japanese end to your day.

Day 6 Kushiro. This morning we will drive to Kushiro, which is the economic and commercial centre of eastern Hokkaido and well-known as the winter home of red-crowned crane. In the morning we will visit the Kushiro Marsh. We will take the boardwalk around the Onnenai visitor centre to see the vegetation of marshland before continuing to the observatory where we can keep an eye out for some of the two thousand varieties of animals and plants that reside here, including Hokkaido deer and the white-tailed sea eagle. After lunch we continue to the Kushiro Japanese Crane Reserve to learn about the cranes and see some of the resident birds.

Day 7 Ikeda Winery. Departing from Akan, we enjoy a scenic drive through the countryside of central Hokkaido arriving at lunchtime at the Ikeda winery. In 1952, the mayor of Ikeda town and his team started to cultivate grapes for wine. Although the climate of Hokkaido is not suitable for grape

Shiretoko National Park

cultivation, they created Ikeda Wine through crossbreeding vines which originated in France and Hokkaido wild vine. Ikeda wine was prized at the international wine competition in 1964 and praised by Queen Elizabeth II in 1975 during her Japanese tour. We will enjoy a tasting and lunch before continuing our drive to the Tomamu Resort Hotel, our base for the next two nights.

Day 8 Furano & Biei. We will spend the day visiting Furano and Biei, cities famous for their flower production. After a scenic drive to Furano we will visit the Tomita Farm flower garden. Flowers were first grown here in 1903 and the farm is famous for its lavender but also has fields of poppies, lupins and herbs across its 12 hectare site. Our next stop is the panoramic flower gardens of Shikisai-no-oka, providing more spectacular views across 15 hectares of land on Oka-no-machi Biei. It is a paradise of seasonal blossoms from spring through to autumn, in which several dozen different species of flowers and grasses flourish.

Day 9 Otaru. Today we will drive to Otaru where, after lunch, we will have some free time to explore the Sakaimachi district. Here you will find seafood markets, shops and a glass factory, or you may wish to see the views towards the Otaru canal. In the late afternoon we will drive to the port to embark Le Soleal.

PRICES PER PERSON

Based on double occupancy

Twin: **£2695**; Single: **£3595**

Price Includes: Overnight accommodation in Tokyo and two nights accommodation in Shiretoko, Lake Akan and Tomamu on a bed and breakfast basis, lunch on days 3 to 9, dinner on days 2 to 8, excursions as described, Noble Caledonia Tour Manager, gratuities.

LE SOLEAL

We are delighted to have chartered Le Soleal for our cruises to the Russian Far East and Alaska in 2019. Launched in 2012, Le Soleal is a luxury expedition ship with 128 staterooms and suites and an onboard fleet of Zodiacs allowing for ease of exploration. This superb vessel offers a subtle blend of sophistication combined with casual comfort creating the feeling of being on a private yacht. After a day of exploration, you can return to personalised comfort and luxurious surroundings as well as high quality cuisine. Whilst cruising, the vessel benefits from spacious deck areas from where you can watch for passing wildlife and appreciate the dramatic scenery. The atmosphere on board is relaxed and informal with the focus on the wonders of the destination you are visiting which, combined with the luxury surroundings, excellent service, superb cuisine and expert expedition team, makes for an expedition of a lifetime.

Your Stateroom/Suite

Staterooms and suites are spread over four decks and include superior staterooms, measuring 21 square metres, deluxe and prestige staterooms which measure 18 square metres, deluxe suites which

measure 27 square metres, prestige suites which measure 37 square metres and the owner's suite which measures 45 square metres. With the exception of the superior staterooms (which feature a picture window), all staterooms and suites feature a

private balcony ranging in size from 4 to 8 square metres dependent on cabin category. All staterooms and suites feature en-suite facilities including a shower (the owner's suite has a bathtub), individually controlled air-conditioning, desk with stationery, minibar, flat screen satellite television, video on demand, DVD player, CD and I-pod players. A security safe, hairdryer, direct dial telephone, internet access with Wi-Fi, bathrobes and French bath products are also provided. In addition, the larger suites have a

library and internet corner. Outside deck areas are spacious and feature comfortable deck furniture as well as a heated pool and on the top deck you will find the open-air bar. The fitness centre features the latest equipment such as a kinesis wall and running machines. In the beauty centre you can relax and enjoy a massage as well as other treatments. The cuisine on board is worthy of the finest restaurants where discreet, attentive service is standard. The two single-sitting restaurants welcome you for breakfast, lunch and dinner. The Gastronomic Restaurant is situated on Deck 2 and serves French and international cuisine accompanied by fine wine. At the Grill Restaurant, you have the opportunity to eat outside and enjoy buffet lunch and themed dinners. There is also 24-hour room service available.

Stateroom

Your Space

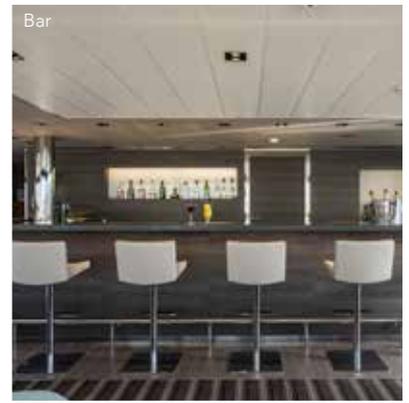

Whether you want to join other guests in the theatre or games area or relax on your own in a quiet corner of the library, Le Soleal has been designed to meet the needs of every guest. There is a large lounge, lecture theatre, a Panoramic Lounge which leads out onto a terrace,

Lounge

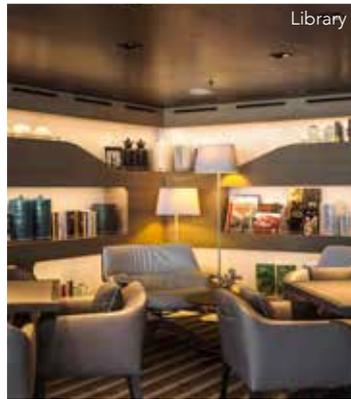

Theatre

Bar

Restaurant

Library

Suite

Life On Board

Aboard Le Soleal, the atmosphere is akin to being on your own private yacht. The independence and space of each guest has been considered in the design of the vessel and therefore you will find plenty of places to sit and relax in solitude, as well as areas for social gatherings and to meet fellow guests. The Captain, his officers and the hotel management are European and all crew members are fully bilingual.

For your Comfort, Safety and Security

With a 1C ice class and stabilisers, Le Soleal meets the highest safety specifications. The ship is equipped with a GMDSS emergency communication system and a satellite weather system, receiving real-time satellite images of weather and ice conditions in the area. A crew of 140 will ensure the best possible service. There is also a doctor on board and a lift that serves all decks.

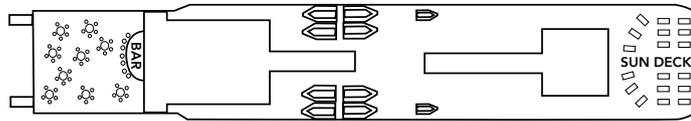

During this voyage you will be visiting out of the way destinations and will

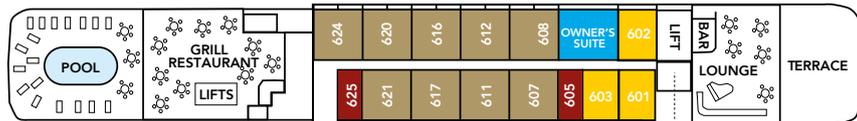

be accompanied by an expedition team. Landings and excursions will be made by Zodiac landing craft. This cruise will appeal to the more adventurous and those who enjoy the natural world.
