Southern Africa is a region of astounding natural beauty with extraordinary wildlife and majestic landscapes which cast a life-long spell on all who visit. This new and unique escorted tour which has been devised for just 16 participants begins with a three night stay in Cape Town during which we will explore the vibrant city and the picturesque Cape Winelands. Following our time in Cape Town we fly to Victoria Falls to begin our exploration of the great waterways of the Chobe River, Zambezi River, Lake Kariba and the grand Victoria Falls.

There can be few natural wonders as synonymous with Africa's raw wilderness as the great Chobe River and its exotic banks boast one of the densest populations of wildlife on the African continent. From our base at the wonderful Cascades Lodge, at the confluence of the Zambezi and Chobe Rivers, we will cross over to Botswana for a game drive around Chobe National Park, visit the villages of Impalila Island and enjoy private boat trips along the Zambezi River. We then journey by small private plane to Lake Kariba where rare and mysterious landscapes await and we embark our stylish house boat, the newly built African Dream.

Lake Kariba is formed behind the massive Kariba Dam and, at 280 kilometres long by 50 kilometres wide is one of the largest man-made lakes in the world. Here, in this remote paradise, ancient long-dead trees reach skywards, their twisted limbs casting shimmering silhouettes against the striking red African sunsets and you can spot lions, leopards, elands, waterbucks, bushbucks, impalas and kudus, and of course hippos and crocs, as well as an astonishing variety of birds. Our three night river safari winds its way through the Sanyati Gorge, where 100 metre basalt cliffs plunge into the lake below and then onwards through the Matusadona National Park, another unique eco-system with a myriad of wildlife including majestic elephant, rare cheetah and even rhino. After the cruise we spend our final nights at the spectacular Victoria Falls or Mosi-oa-Tunya - "the smoke that thunders", a fitting finale to this wonderful tour.

Day 10 Matusadona National Park, Zimbabwe. We set out this morning on a safari to discover the area around Matusadona National

Saddle billed stork, Lake Kariba

Kariba dam

Victoria Falls

Zebras, Matusadona National park

Park. Bordered by the Sanyati and Ume Rivers, this 1400 square kilometre, untouched area is home to numerous animal species such as elephants, hippos, crocodiles and buffalos as well as thousands of birds, amongst which we may see the legendary African sea eagle, the majestic yellow-billed stork, or the black heron with its interesting hunting methods. We might also be lucky enough to cross paths with a big cat or two. The history of the park is closely linked with that of the lake: during the construction of the dam, the rising floodwaters affected the native wildlife although the damage was mitigated by Operation Noah, an initiative which saved the lives of over 6000 animals. This rescue operation allowed for large mammals, big cats, impalas and more to be moved to Matusadona where hunting is strictly prohibited. Enjoy lunch and dinner on board. **(B, L, D)**

Day 11 Kariba to Victoria Falls, Zimbabwe. At sunrise we set sail towards Kariba where we will discover the gigantic Kariba Dam which was created in 1955 to form

Lake Kariba. Today, the dam serves as a source of electric power for 70% of Zimbabwe. Discover the history and legends surrounding the creation of the lake including the tale of NyamiNyami, the river god. Disembark the African Dream and transfer to the airport for our flight to Victoria Falls on board private planes. On arrival we will enjoy lunch before our guided tour of the falls which form the largest single curtain of falling water on earth (on average the curtain is 92 metres deep). The 500 metre

plume of spray can be seen from as far as 70 kilometres away and the sound of the water can also be heard from kilometres away and up close this muted 'thunder' becomes a roar. The vast width of the falls, extending 1708 metres, allow for many safe vantage points from where you will be able to get different views of the roiling water as it crashes into the gorge and whose constant spray maintains the rain forest. Transfer to the Victoria Falls Safari Lodge for our two night stay. **(B, L, D)**

Day 12 Victoria Falls. Spend the morning at leisure. This afternoon take a lunch cruise upstream from the falls, on the mighty Zambezi River. This evening we enjoy our farewell dinner in the hotel. **(B, L, D)**

Day 14 London. Arrive today.
