16TH DECEMBER 2025 TO 3RD JANUARY 2026*

NOBLE CALEDONIA

Nosy Hara

Brown lemur, Diego Suarez

The term ‘unique’ is an often overused description in the travel world but certainly applies to the island of Madagascar. The animals, plants, landscapes and people that make up this thousand mile long island are unlike anywhere else in the world. This extraordinary country long remained obscure as a destination and is still relatively unknown amongst even the most serious of travellers. There is minimal infrastructure in many parts of the island and for those wishing to explore in some depth, doing so by small ship, especially one as well-suited as the MS Island Sky is far preferable to exploring by any other means.

Our unique voyage focuses on the wonders of the island of Madagascar with opportunities to explore forests full of wildlife including lemurs, chameleons and indigenous birdlife as well as witnessing the underwater world and village life. Our days will be spent exploring ashore, often traversing over rugged terrain and walking through spectacular forests and each evening we will have the benefit of returning to our comfortable ship to relax and look forward to the next adventure. With the vessel’s fleet of Zodiacs for forays ashore, allowing access to some wonderful places denied to larger ships, you can enjoy encounters with fabulous endemic wildlife in this immensely rich and timeless corner of the Indian Ocean. Our onboard experts will greatly enrich your experience and ensure that we make the most of our time on the world’s “eighth continent”.

What to Expect

Flexibility is the key to an expedition cruise; sometimes the whole day’s schedule will be changed to maximise your experience, something that would not be possible on a large cruise ship. Each day holds something new and below is an extract from the ship’s log of a previous expedition which will provide you with an idea of what to expect.

Nosy Tanihely: *Coming ashore after lunch, some of us headed off for a naturalist walk with the expedition team and local guides. We soon learned that the timing of our visit was perfect: the weather was excellent, but recent rain had brought out all the wildlife. As a result, the leaf litter in the island’s forested interior was crawling with skinks, plated lizards, millipedes, hermit crabs and land snails. In the trees, we discovered huge blue panther chameleons, bright day geckos and common brown lemurs feeding on fruit. Bird life was in evidence too, with white-tailed tropicbirds, Malagasy kestrels and a Humblot’s heron amongst the main highlights. Dating back to 1908, a small lighthouse at the island’s 200 metre peak provided some historical interest before we turned and headed back down to the beach for refreshments. Several sampled the excellent local rum or sipped fresh juice from freshly harvested coconuts. Many donned their snorkelling gear and headed into the sea, where they were treated to a kaleidoscope of corals interspersed with sponges and anemones, all augmented with myriad colourful reef fish. Even a few rays and turtles were seen during an afternoon of world-class snorkelling in calm waters that offered excellent visibility.*

Nosy Hara: *Before breakfast, the ship entered the picturesque Nosy Hara archipelago and anchored just off one of the dozen or so stunning rocky islands. Impressive formations of jaggedly eroded limestone karst, known locally as tsingy, towered above picture-postcard beaches of white sand. As the tides were not in favour of going ashore at the main island of Nosy Hara before lunch, we landed in the early part of the morning on Nosy Anjambavola instead, where most people snorkelled or swam off a small beach of alluring soft sand. Others enjoyed the sun and explored the coastline. The remainder of the morning was spent Zodiac cruising around the nearby small islands with sightings of white-tailed tropicbirds and Madagascar black swifts soaring in the sky, not to mention the cherry on the cake: good views of the incredibly rare Madagascar fish eagle. Straight after lunch, snorkelling from a Zodiac platform in a different part of the reef was on offer. The coral here turned out to be some of the healthiest and most diverse seen so far on the trip, with many colourful reef fish weaving in between. Mid-afternoon, we landed on Nosy Hara for wildlife walks. Top of the list of target species here was the Nosy Hara stump-tailed chameleon, Brookesia micra, and we were successful in locating a specimen of this extraordinary minute creature, which measures 29mm fully grown. Amongst other wildlife found were a variety of geckos, several kinds of crabs, the Madagascar coucal, souimanga sunbirds, a scorpion, a young Madagascar ground boa, and countless green mantella frogs. Plants of note included Suarez aloes, flame trees, orchids, and Amorphophallus ankarana.*

The Itinerary

Day 1 London to Mauritius. Fly by scheduled indirect flight.

Day 2 Mauritius. Arrive this morning and transfer directly to the MS Island Sky. Settle into your suite and spend a leisurely day on board. This evening enjoy welcome drinks and dinner as we set sail this evening.

Day 3 Reunion Island. We arrive at breakfast in Reunion where we have a choice of excursions. On a full day tour we will visit the central highlands where spectacularly rugged peaks of volcanoes cradle huge amphitheatres known as cirques, where mountains tower to over 10,000 feet and beautiful waterfalls plummet hundreds of feet. The rich soil and mellow climate produce a lush and verdant landscape which is dotted with villages and towns with a uniquely French atmosphere. Fields of sugar cane and plantations of tropical fruits, vanilla and all manner of spices perfume the air. We will enjoy views from the Nez des Boeuf and see the Piton de la Fournaise crater. After enjoying a creole lunch in a local restaurant we will visit 'La Cite du Volcan' museum. Alternatively enjoy a morning tour to a vanilla plantation in Saint Andre where we learn about the history and culture of this integral part of Reunion's heritage. Continue to Salazie, a verdant landscape and home to many waterfalls including the 'Voile de la Mariee' before spending some free time in Saint Denis on the way back to the ship. This afternoon is at leisure before we set sail this evening.

Day 4 At Sea. Spend the day at sea as we sail towards Madagascar. Maybe join a lecture or find a spot on deck to relax.

Day 5 Toamasina, Madagascar. Our first call in Madagascar is Toamasina, the country's main port and second largest city as well as the gateway to the Ivoloana Zoological Parc, a 282 hectare property combining a small zoo where we will see up to a dozen species of lemur as well as indigenous tortoises and chameleons. In the surrounding forest we can see free roaming wild lemurs and other wildlife along the various lakeside walking trails. We return to the ship for lunch and an afternoon cruising.

Days 6 & 7 Masoala National Park & Nosy Mangabe. We will spend two days exploring from our anchorage in Antongil Bay. We discover Nosy Mangabe, a 520-hectare island reserve and one of the most diverse areas of virgin rainforest in Madagascar which has also been an important research centre since the mid-1960s when several aye-ayes and other lemurs were released into the forest. We will use our Zodiacs to land on the beach next to the forest and organise a series of nature walks looking at the varied trees, plants and ferns and we hope to spot chameleon, lizards and black and white ruffed lemur. For the birders, we will keep an eye out for Madagascar buzzard, kingfisher and paradise flycatchers. We will also explore Madagascar's largest National Park, the Masoala Peninsula, which comprises of coastal rainforest, flooded forests, marsh and mangroves. We may be lucky enough to encounter a group of locally endemic red-

ruffed lemur. The park is also home to various species of brightly coloured Mantella frogs, all manner of extraordinary chameleons and is a refuge for the endangered Madagascar red owl, Madagascar serpent eagle and many endemic bird species. A range of walks will be on offer, as well as a visit to the local village.

Day 8 Domaine de Bobangira. After a morning at sea we arrive over lunch at the port of Voaher, our base for an afternoon at the Domaine de Bobangira. This reserve on the Indian Ocean has wild, unspoiled beaches and forests rich in biodiversity having about 40% of endemic flora to the region. Declared as a protected private nature reserve in 2017 by the national forestry department, it is home to fat-tailed dwarf lemurs, the diurnal white-headed lemur, Brookesia and various species of chameleons. There are also large centenarian canarium bujiga trees in the park, locally known as mandrirofo, a type of tree used in Madagascar to build fishing pirogues.

Day 9 Diego Suarez. This morning we will enter the dramatic harbour of Diego Suarez. Also known as Antsiranana, the town has a cosmopolitan mix of inhabitants including Creoles, Indians, Chinese, Comorans and Arabs. This morning, choose from a city tour taking in the Commonwealth Cemetery, the faded colonial grandeur of Place Joffre, and a baobab viewpoint at French Mountain; or alternatively, drive up to Amber Mountain National Park at an elevation of 3,200ft, where we will divide into short and long walking parties to explore the pristine rainforest. In the towering vegetation, we may spot Sanford's brown and crowned lemurs, as well as chameleons, stunningly well camouflaged leaf-tailed geckos, and an array of endemic birds.

Day 10 Nosy Hara. Having sailed around the northern tip of Madagascar we start our journey along the western coast of Madagascar where we will find a number of strangely shaped limestone islets that dot the aquamarine sea. The expedition team will decide on the most suitable island for landing, such as Nosy Hara with its abundant birdlife and great places to swim off the beach. We will spend the day exploring the island on foot or alternatively join a Zodiac cruise around the islands with a chance to snorkel over the coral.

Day 11 Nosy Tanihely. We spend the morning at the Nosy Tanihely Island Marine Reserve, an uninhabited island which offers snorkelling opportunities and wonderful beaches. We will take the opportunity to either swim in the clear waters or snorkel over the corals keeping an eye out for reef fish, turtles and morays. Alternatively explore the island where we may see the resident lemurs, skinks, fruit bats and hermit crabs and enjoy fantastic views from the 1908 lighthouse on the island's highest point.

Day 12 Mahajanga. Mahajanga is a major port in northwest Madagascar situated on the Betsiboka River and is our base for a full day tour of the surrounding area. We will commence with a drive to Lake Mangatsa, a sacred site of many legends where we will learn about local

Mantella frog

Chameleon

Avenue des Baobabs

traditions as we search for lemurs, chameleons and birds in the trees. Lunch will be served at the Antsanitia Resort, set in 22 hectare of grounds and located on a stunning section of coastline, and there will be an opportunity to swim or enjoy a walk along the beach, see the local fishing boats and visit the village before we return to the MS Island Sky.

Day 13 At Sea. Spend a leisurely day on board as we continue our journey around the Madagascar Coast.

Day 14 Morondava. From our anchorage off the town of Morondava, capital of the Menabe region, we will use the Zodiacs to land on the local beach. From here there will be a choice of excursions to explore the local region. This morning we will explore Zazamalala Forest, a protected area that is home to a number of species of lemurs, birds, reptiles and plants, and also the base for a breeding centre for critically endangered species of turtles and tortoises. It was initially set up in 2000 as a reforestation project and to promote sustainable use of the forest. We will then head to the Avenue des Baobabs. Of the eight baobab species in the world, six are endemic to Madagascar and here we will marvel at the majestic Grandidier's baobabs, a couple of dozen of which form a natural avenue. We will learn about the trees and their spiritual significance, as well as having the opportunity to contribute to local reforestation efforts by planting a young baobab ourselves. Alternatively, join a full day excursion to Kirindy Forest (subject to road conditions at time of visit). Situated approximately a two hour drive from Morondava, we will pass the Avenue des Baobabs as we travel north. Kirindy is a 10,000 hectare, dry deciduous forest, one of the most endangered in the world where the flora and fauna includes many endemic species. Here we find three species of baobab, many birds and reptiles including snakes, tortoises and lizards. Eight species of lemur reside here including the pale form marked lemur.

Day 15 Andavadoaka & Nosy Hao. The vessel will anchor this morning off the small fishing community of Andavadoaka, home to the Vezo fishing people. The area offers the most diverse marine ecosystem on the southwest coast. It is also the flagship project for Blue Ventures, a marine conservation society that has helped the local villagers invest in their community. We hope to learn more about the local projects before sailing over lunch to Nosy Hao to discover the sandy white beaches where we can enjoy a swim in the warm waters.

Day 16 Tulear. Our final call will be at Tulear from where we have a choice of tours this morning. Maybe visit the Antsokay Arboretum which is entirely devoted to the conservation of the plants from the southwest of Madagascar and, after more than 30 years of hard work, offers a densely kept selection of flora presenting a typical sub-arid thicket with baobab trees towering over the smaller plants. We will see the four hectare botanical garden which comprises over 900 species of plants of which

90% are endemic to the region. Alternatively, visit the Reniala Private Reserve, a small area of just 60 hectares but containing a spiny forest which is unique to southeastern Madagascar. The park is home to 200 plant species including baobabs as well as being a haven for birders with sightings of paradise flycatchers, Madagascar hoopoe and Madagascar crested drongo. This afternoon is free for independent exploration as we moor overnight.

Day 17 Tulear to London. Disembark this morning and transfer to the airport for our specially chartered flight to Johannesburg. Connect here with our scheduled flight to London.

Day 18 London. Arrive this morning.

16th December 2025 Departure – *Please note that the 16th December departure operates in the reverse direction to that shown from Tulear to Port Louis, and is a day longer with an overnight stay in Johannesburg on the outbound journey. Full itinerary can be viewed online.

PRICES PER PERSON

Based on double occupancy

SPECIAL OFFER – SAVE £500 PER PERSON FOR A LIMITED TIME ONLY

MS ISLAND SKY

Friendly Service

Deluxe Balcony Suite

The Restaurant

The much loved MS Island Sky is one of our two flagships and sister vessel to the MS Hebridean Sky. Both vessels were built in the same shipyard in Italy at similar times and share the same excellent attributes that make them two of the finest small ships in the world. With a maximum passenger capacity of only 118, a vessel of her size is capable of carrying many more but instead the MS Island Sky has the benefit of unusually large suites, luxuriously appointed public areas and spacious outside decks.

Your Suite

On board there are 59 exceptionally spacious and well-designed suites. All feature a seating area and some have private balconies, whilst those on the Marco Polo Deck feature tinted, sliding glass doors allowing greatly enhanced viewing opportunities and quick access to the deck. The feeling of luxury is enhanced by the wood panelling and brass, which predominates throughout the vessel conveying the atmosphere of a private yacht. The passenger accommodation is arranged over five decks and each suite affords considerable comfort with en-suite bathroom featuring marble-topped vanity unit with sink and walk-in shower, a large wardrobe, dressing table and excellent storage. There is a mini-fridge, flat screen television with inbuilt DVD/CD player and a telephone in each suite. Refillable water bottles, dressing gowns and slippers are also provided for your comfort. Other facilities include a safe, hairdryer, assorted Molton Brown toiletries, air-conditioning and heating. The comfortable beds in each suite can be configured as either double or twin.

Your Dining

With only one sitting and a maximum of just over 100 passengers, the cuisine on board the MS Island Sky is of a consistent superior quality that befits such a vessel. In keeping with the informal atmosphere on board, when dining you are able to choose your seating arrangements and choice of restaurants at your leisure; whether that be joining a table of four to six other passengers in the elegant à la carte Restaurant or outside buffet-style on the Lido Deck in the evening sunshine. In the main Restaurant, breakfast is served buffet-style, with certain items cooked to order on request. Lunch and dinner menus offer plenty of choice, often reflecting the daily catch and local delicacies. The Welcome and Farewell dinners are a sumptuous five course affair. To enhance your dining experience further a selection of wines is included with both meals. Afternoon tea and pre-dinner canapés take place in either the comfort of the Lounge or out on the Lido Deck when the weather is favourable. Tea and coffee are also available 24 hours a day. Special diets can be catered for with sufficient notice.

Superior Suite

The Club

The Library

Your Space

The spacious and finely decorated public rooms include a large Lounge on the Columbus Deck featuring a selection of seating options from individual armchairs and sofas to side cushioned benches. Daily briefings given by the Cruise Director and talks from Guest Speakers and expedition staff take place in the Lounge. In addition to the main Lounge, there is also The Club, located on the Marco Polo Deck which features the main bar. The Club also features a 24-hour tea and coffee station. Towards the aft of the ship on the Columbus Deck is the Library. Well stocked with reference books pertaining to the destinations the vessel is visiting and a selection of essential reads, you will not find yourself short of excellent literature on board. A collection of games as well as devices to access the internet via the ship's satellite can also be found in the Library. Access to the ship's satellite Wi-Fi via your own device is complimentary on board (*signal strength varies depending on location and demand*). The main Restaurant, which can seat all guests at one sitting, is located on the Magellan Deck, and outside there is a rear Lido Deck located on the Erikson Deck where meals are served in warm weather under shade. Further to this on the top Explorer Deck there is an observation area ideal for spotting wildlife, complete with sun loungers for sunbathing, relaxing with a book or catching up with fellow travellers. The Promenade Deck wraps around the whole ship giving outstanding views. There is also a small beauty salon on board with appointments made on request.

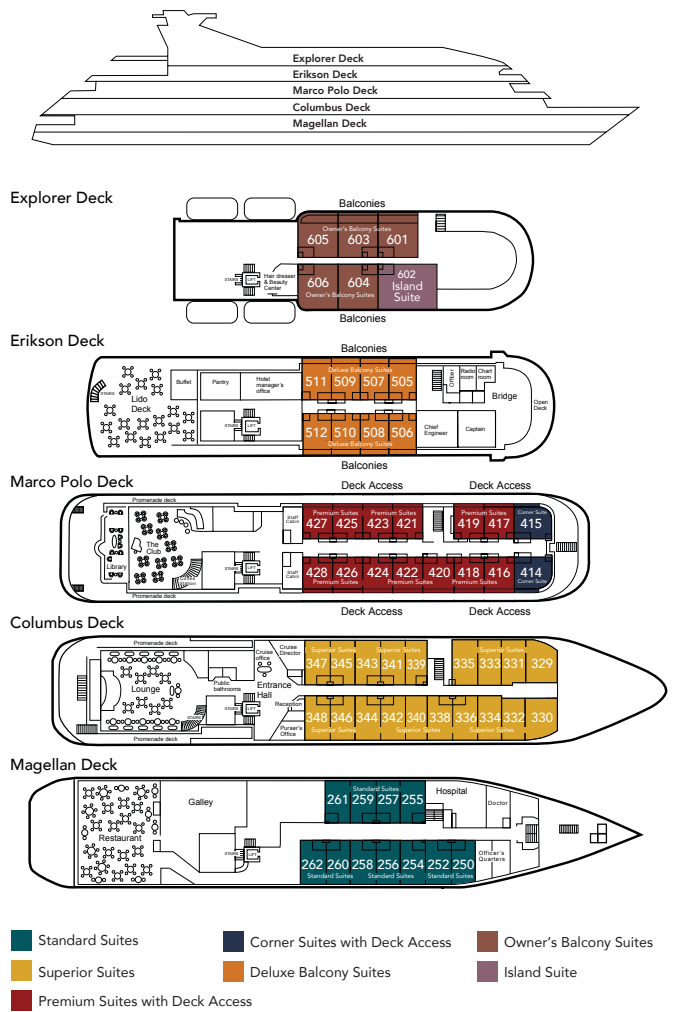

Your Comfort

The MS Island Sky is equipped with the latest safety, navigation and communications equipment along with roll stabilisers to minimise the ship's motion. During your voyage we hope to offer you the opportunity to visit the Captain and Officers on the Bridge to check the vessel's progress by charts and learn more about your journey. On board you will also find a clinic and Doctor and a lift that serves all decks. When at anchor our nimble Zodiacs will ferry you ashore or, on select cruises, enjoy Zodiac cruises getting you closer to the natural world.

Your Life On Board

The atmosphere on board is warm and convivial and more akin to a private yacht or country hotel in which you can learn more about wonderful destinations you are visiting in the company of like-minded people. There is a high ratio of crew to passengers and our friendly crew of 75 are mainly Filipino and Eastern European and our Captains are experienced mariners. After a day ashore you will return to the comfort and peace of a well-run and exceedingly comfortable ship where peace, high quality of service and attention to detail are the order of the day. A little music in the Lounge after dinner, Guest Speakers and informative port briefings and of course good food, all contribute to make any voyage aboard this wonderful vessel a memorable and joyful experience.

MS ISLAND SKY DECK PLAN

During this voyage you will be visiting out of the way destinations and will be accompanied by an expedition team. Landings and excursions will be made by Zodiac landing craft. This cruise will appeal to the more adventurous and those who enjoy the natural world.
